WHAT IS CORPORATE LINGO

Corporate lingo is the professional language used in workplaces to communicate clearly, respectfully, and efficiently.

INFORMAL VS FORMAL

Situation	Informal	Formal
You need a report urgently	"Hey, send the report fast. I need it."	"Hi, could you please share the report at the earliest? I need it for review."
Asking for time	"Give me more time."	"Could I request some additional time to complete this?"
Interrupting someone	"Wait, listen to me."	"May I add something here?"
Disagreeing	"I don't agree with you."	"I have a different perspective on this."
Giving feedback	"This is wrong."	"There seems to be an issue with this."

Tips from me :

- Think and speak
- Use please, thank you, could, would etc..
- No abbreviations
- Be specific and clear
- Don't use emotional and aggressive words
- Positive language not negative words
